Participation in Talk by the faculties & students of History department, VIC

The Department of History, The Bhawanipur Education Society College, under the aegis of its IQAC, organised a talk and an interactive session with the students in collaboration with the Department of History, Victoria Institution (College), and Punarnaba, a non-governmental research organisation, on 1 October 2026. The programme was held at The Bhawanipur Education Society College from 2:00 p.m. to 5:00 p.m. Thirty-nine students from Semesters VII, V and III, accompanied by five faculty members from the Day and Morning sections of Victoria Institution (College), attended the seminar. The dignitaries present included Prof. Ratnabali Chattopadhyay, Prof. Malini Bhattacharya and Dr. Preeta Bhattacharya. The discussion highlighted the importance of primary sources in historical research and the methods of studying and interpreting them.

The seminar was interactive in the truest sense. Following the discussion on primary sources, students were invited to share their experiences of the National Education Policy (NEP). Our students participated enthusiastically, expressing their views and concerns. Faculty members also discussed various aspects of the NEP. Everybody present their emphasised on holding regular workshop by the Board of Studies with the teachers. The programme provided a valuable opportunity for open dialogue and was an engaging and enriching experience for both students and teachers. We extend our heartfelt gratitude to our principal madam for her support to participate in such an engaging collaborative activity.
