

Report on Freshers' Celebration

Department: Botany

Occasion: Freshers' Welcome Programme

Participants: Semester III & V (hosts) welcoming Semester I students

The Department of Botany organized a warm and vibrant Freshers' Celebration to welcome the newly admitted Semester I students. The programme was thoughtfully hosted by the students of Semester III and Semester V, who worked with enthusiasm and coordination to make the event memorable.

The celebration commenced with a brief inaugural session, followed by a series of cultural performances. Students presented songs, dances, recitations, and short skits that reflected creativity, teamwork, and youthful energy. Several interactive games and fun activities were also conducted, encouraging participation from the freshers and helping them feel comfortable and included within the department. The atmosphere throughout the programme was cheerful and welcoming.

The programme concluded with words of encouragement from the faculty members, inspiring the new students to actively participate in academic and co-curricular activities. The Freshers' Celebration successfully strengthened the bond between juniors and seniors and fostered a sense of belonging within the Department of Botany.
