

A Heartfelt Farewell: Celebrating Bonds and New Beginnings

Farewells hold a special place in our hearts, blending joy, nostalgia, and hope for the future. On 12th July 2025, the Chemistry Department bid an emotional farewell to its outgoing Semester 6 students in a warm and memorable gathering. Held in Room No. 6, lovingly decorated by juniors and teachers, the send-off was a beautiful mix of speeches, poetry, and heartfelt gestures. The juniors spoke with genuine affection, sharing their admiration for their seniors and wishing them success in the next chapters of their lives. Touching poems added a deep emotional note, drawing smiles and tears alike. Teachers not only organized delicious food but also offered valuable advice to guide the students as they step into new journeys. A special highlight was the memento given by the students—a thoughtful token featuring a picture of both students and teachers, along with a letter recalling the fond memories and good behaviour of the Chemistry faculty. This farewell was

more than a ceremony; it was a celebration of the bond shared between teachers and students, a reminder that while college days may end, the warmth of these connections stays forever. As the students move forward, they carry with them blessings, memories, and the promise of bright futures ahead.
