

Earth Day Celebration & Release of Wall magazine By Geography Department, VIC

The Department of Geography in collaboration with IQAC, celebrated Earth Day on 22nd April 2025 by opening a wall magazine as designed and prepared by Semester 2 and 6 Major students of the Department. The wall magazine highlighted the two board aspects: (1) River bank erosion and livelihood vulnerability: Case specific study on Malda District, and (2) Climate change and invasive alien species in India. We extend our heartfelt gratitude to our respected Principal Madam for her support and encouragement.
