

## Parent-Teacher Meeting on 18.12.2025 of Mathematics Department

A Parent-Teacher Meeting was conducted on 18 December 2025 in Room No. 1 of the Mathematics Department from 2:00 p.m. to 3:30 p.m. The meeting involved Semester 3 and Semester 5 students along with their guardians. Four teachers participated in the discussion, focusing on students' previous semester results, class test performance, and regularity of attendance.

The performance of Semester 5 students was found to be satisfactory, with good outcomes in class tests and consistent attendance. Communication between the teachers and Semester 5 students was smooth, as they remained regularly connected with the department through phone and WhatsApp groups.

In contrast, Semester 3 students showed poor attendance and unsatisfactory performance in their Semester 1 results. Teachers expressed concern over communication gaps, as many students were often unreachable and did not actively follow departmental WhatsApp groups. The teachers advised guardians to ensure better student engagement and concluded the meeting by wishing all students success in their forthcoming examinations.

Teachers are discussing student's performances with their guardians
