

Report on Teachers' Day Celebration on 05.12.2025

Teachers' Day was celebrated with great enthusiasm on **5 December 2025** at **Room No. 2, Department of Mathematics**, jointly organized by **Semester I and Semester III Mathematics Major students**, in the presence of our esteemed **Principal, Dr. Maitreyee Ray Kanjilal**, faculty members, and outgoing students at 12 noon.

The programme commenced with an inspiring and thoughtful address by **Principal Madam**, who highlighted the noble role of teachers in shaping young minds. Her speech was followed by brief addresses from the teachers of the department in order of seniority, reflecting shared experiences and academic values.

As a gesture of affection, the students requested the teachers to cut a cake and presented a framed photograph of **Dr. A. P. J. Abdul Kalam**, symbolizing knowledge, vision, and inspiration. The students also arranged food packets and presented a delightful cultural programme, which added warmth and joy to the occasion. An interactive tongue-twister session further enlivened the celebration.

The event concluded on a heartfelt note, making it a truly **memorable and cherished day** for all present at 1.30 pm.
