

Commemoration of the International day of Women and Girls in Science
organized by the Dept. of Physics on 11.02.2026

A program to commemorate the International day of Women and Girls in Science was organized and hosted by the Department of Physics, Victoria Institution (college) on 11th February 2026. The event which was entitled Empowering Women and Girls in Science : Celebrating voices and Experiences in STEM was aimed at honoring the brilliance and power of the women in shaping the future of science. The program became a powerful platform where the students shared their journeys, their challenges, dreams and aspirations in science.

Eight students from Semesters I (Major) and III (Major) participated and through thoughtful reflections on gender gap in STEM, they voiced a strong desire for change, inclusion and equality. The confidence and clarity with which the young minds spoke of research, higher studies and leadership in scientific field made the day truly special with their words carrying hope and determination. The teachers present also shared their experiences and thoughts on the topic. It was not just a program but a celebration of resilience, intellect and possibility and along with that it was a reminder that the future of science shines brighter when every girl dares to dream.
