Report on the celebration of Freshers' Welcome program of the students of semester I in the Department of Physics on 06.10.2026

A warm and cordial Freshers' Welcome program was nicely organized and hosted by the senior students of semester III, V and VII of the Department of Physics of Victoria Institution (College) to extend a heartfelt welcome to the newly admitted semester I students of the department. The program was conducted in a lively and friendly atmosphere, with the active participation of Principal madam of the institution along with the students, faculty members and non-teaching staffs of the department. Principal madam, Dr. Maitreyi Ray Kanjilal and faculty members welcomed the freshers and shared encouraging words, motivating them to approach their academic journey with sincerity, perseverance and enthusiasm. Their inspiring addresses helped the newcomers feel confident and connected with the department. As a gesture of goodwill and motivation, gifts were also presented to the freshers by the faculty members. The senior students arranged an engaging cultural program featuring songs, recitations and other performances, which added joyful environment and vibrancy to the occasion. The freshers also participated enthusiastically by presenting songs and dances and by sharing their initial feelings and experiences of joining the department of the institution. Their expressions reflected excitement, hope and eagerness for the journey ahead. The program concluded with a photography session followed by refreshments, providing everyone with an opportunity for informal interaction. Overall, this celebration was a pleasant and memorable occasion, fostering friendship, unity and academic spirit among the students and teachers of the department.
