

Publication of Wall Magazine Polyphony by Political Science Department, VIC

The Wall Magazine 'Polyphony' was published by the Department of Political Science in the august presence of our respected Principal Dr. Maitreyi Ray Kanjilal on 13th March 2026. Keeping into consideration the contested arena of citizenship today, the edition has been themed as "Civitas". The insightful words from Principal Madam encouraged the students to continue this journey of learning through departmental activities. The students highlighted different aspects of citizenship today through their insightful research. We are thankful to all who participated in this endeavour on the one hand, and gave all kinds of support, on the other.
